

# CODE YOUR WAY TO COLLEGE

Tomorrow's leaders are learning how to code today. For ambitious students, computer science is the key to college competitiveness, regardless of the field you want to go into.

That's why we created a one-of-a-kind summer program to provide the most empowering, supportive, risk-free coding experience. Here's how:

**One-on-one lessons** *Allowing you to learn at your own pace*

**Top computer scientists as instructors and mentors**

*From companies, like SpaceX, Google, and Facebook, and elite universities, such as Harvard, Stanford, and MIT*

**Specialized curriculum that match your interests**

*Including cyber security, AI, web design, mobile app dev, game dev, tech+health*

**Develop projects with instructors to showcase passions**

**From the comfort of your own home**

**Only 100 spots are available!**

For more information and to sign up, fill out the form below:
