

10th Grade Math Summer Assignments

Math placement letters are emailed from the Registrar to each family at the beginning of July, and on a rolling basis thereafter for late enrollments. ***Please refer to that communication for the math class you will be registered in for the coming year.***

Aim for at least a total of 8 hours of active practice over the summer. This will constitute successful completion of this summer assignment. The idea is to keep your brain actively engaged in math for at least a little bit of time each week.

*KHAN ACADEMY Instructions: To join your class, visit www.khanacademy.org/join and enter your class code. Be sure to log in with your MMS google email, *not* another account. Use the *log in with Google* button and log in using your school email account. If you have forgotten your email or password for your email account, please contact Dr. Nicole at nicole.tervalon@mountmadonnaschool.org.

- **Algebra 2/Honors**

*Khan Academy: Use class code **QC6XRSTU**

Complete 1 hour per week of Khan Academy for 8 weeks (total 8 hours for the summer) - from approximately July 5 - August 27.

Once you have added the course Dr. Nicole will begin assigning homework. Dr. Nicole will be checking once or twice a week to update your assignments if needed or ensure you're registered for the course. There will be many assignments I recommend for completion. You are not expected to complete them all. Try to complete 1 hour per week rather than saving all 8 hours for the end of the summer. You will receive homework credit for the percentage of this assignment you complete before school starts. ****** Make sure you are logged in to Khan Academy with your MMS email so your teacher is able to see your progress ******

- **Geometry/Honors**

*Khan Academy: Use class code **UBGQZ7FE**

Complete 1 hour per week of Khan Academy for 8 weeks (total 8 hours for the summer) - from approximately July 5 - August 27.

Once you have added the course, Luis will assign homework and will check it once or twice a week. Organize your time and try to work 1 hour per week rather than saving all 8 hours for the end of the summer. Besides getting you ready for the course GEOMETRY 23/24 and make it easier to understand, you will receive homework credit for the percentage of this assignment you complete before school starts. If you have any questions, please contact Luis. ****** Make sure you are logged in to Khan Academy with your MMS email so your teacher is able to see your progress ******

- **Pre-Calculus/Honors**
